The 18 cities and county government are SANDAG serving as the forum for regional decision-making. SANDAG builds consensus; plans, engineers, and builds public transit; makes strategic plans; obtains and allocates resources; and provides information on a broad range of topics pertinent to the region's quality of life.

ARRESTS 2013: LAW ENFORCEMENT RESPONSE TO CRIME IN THE SAN DIEGO REGION

INTRODUCTION

The Criminal Justice Research Division of the San Diego Association of Governments (SANDAG) functions as the Clearinghouse for regional criminal justice information. On an annual basis, the Division prepares a report on local criminal justice agencies' response to crime in the region, as measured by arrest statistics. Because arrest statistics include information regarding whether the suspect is an adult or juvenile and includes a greater variety of crime types than are reported in regional crime reports (e.g., alcohol and other drug related offenses), this information provides an added dimension for understanding the nature of crime and an additional measure that can be used in justice system planning.

This CJ Bulletin includes regional arrest rates per 1,000 adult and juvenile population, as well as numbers of arrests by offense type. In addition, 41 supplemental tables, which include statistics for individual jurisdictions, are presented. Some points to remember when interpreting these numbers include the following.

- Similar to how the FBI counts reported crimes, the offense or charge attributed to an arrest may reflect only the most serious out of a number of violations included in the arrest.
- Arrests are documented by the location at which the arrest occurred and cannot be assumed to have any relationship to the location of the crime incident or the residence of the alleged offender.
- Arrest and crime rates and numbers should not be compared to one another. One reason is that the two events may occur in two entirely different periods of time, with an arrest made months or even years after the related crime was reported.

2013 ARRESTS BY THE NUMBERS

- **235:** Average number of adults arrested every day in the San Diego region, up from 231 in 2012.
- **10 to 1:** The average number of adults arrested per day compared to the number of juveniles.
- **33:** The average number of adults arrested each day for misdemeanor driving under the influence – the most common reason an adult in San Diego County is arrested. However, these arrests have dropped considerably over the past five years, down from 47 per day in 2009.

OTHER 2013 ARREST TRENDS AND STATISTICS

In 2013, San Diego County had the highest arrest rate for juveniles and the second highest arrest rate for adults, following only San Bernardino County. The 2013 arrest rate for adults was up slightly from 2012 (1%), driven by an increase in felony arrests (8% from 2012), while misdemeanor arrests actually continued to decline (-3%); in other counties, the arrest rates in 2013 continued to decline. In addition, for the second year, the adult arrest rate was higher than it was for juveniles, with continuing declines in all three categories of juvenile arrests (-9% for felonies, -15% for misdemeanors, and -32% for status offenses). All five of the largest Californian counties had decreases in the juvenile arrest rate for 2013, but San Diego had the smallest change, compared to the other four.

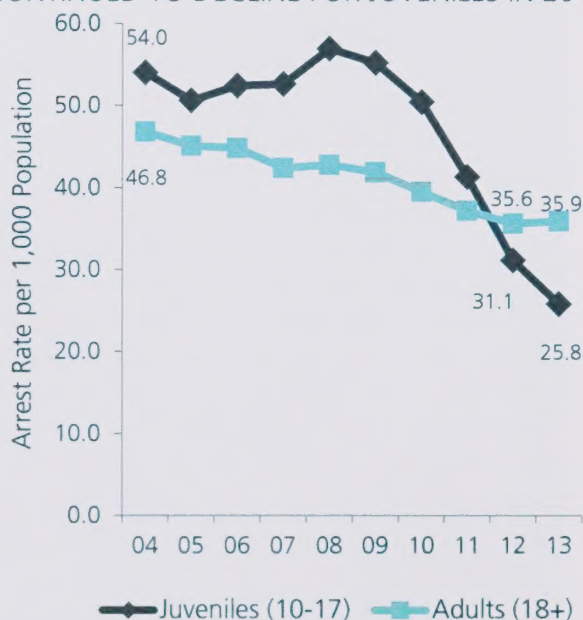

ARREST RATES

Trends

In 2013, there were 35.9 adults arrested per 1,000 population. As Figure 1 shows, this rate represented a slight increase (1%) from 2012, but was 23 percent lower than it was ten years earlier (when it was 46.8). Across the jurisdictions, the adult arrest rate varied from 16.6 to 55.4 in 2013, with one-year increases in 12 of the 19 jurisdictions (Table 6).

Up until 2012, the arrest rate was traditionally higher for juveniles than adults, but this reversed in 2012, with the pattern continuing in 2013. As Figure 1 shows, the 2013 juvenile arrest rate of 25.8 represented a decrease of 17 percent from 2012 and was 52 percent lower than it was in 2004. Across the jurisdictions, the juvenile arrest rate varied from 5.4 to 40.3 in 2013, with 15 of the agencies reporting one-year decreases, two agencies one-year increases, and for two the number of arrests was too small to compare (Table 9).

Figure 1
ARREST RATE UP SLIGHTLY FOR ADULTS,
CONTINUED TO DECLINE FOR JUVENILES IN 2013

SOURCES: California Department of Justice; SANDAG.

Felonies and Misdemeanors

When examining arrest rates for adults by the severity of the highest charge, felonies were up eight percent in 2013 (from 2012), but misdemeanors were down three percent (Tables 7 and 8). For juveniles, on the other hand, rates for both felonies and misdemeanors decreased (-9% and -15%, respectively) (Tables 10 and 11).

Arrestee Race

Arrest rates also varied by race/ethnicity for both adults and juveniles, with individuals of "other" races/ethnicities having the lowest rate (15.7), while Blacks had the highest rate (127.3). Over the past year, the arrest rate increased slightly for Whites (less than 1%) and Blacks (4%), but decreased for Hispanics (-4%) and those of "other" races/ethnicities (-1%) (Table 2).¹

SAN DIEGO COMPARED TO OTHER CALIFORNIA COUNTIES

In 2013, San Diego County had adult (35.9) and juvenile (25.8) arrest rates that were higher than the State's (33.6 and 19.3, respectively). In addition, as Figure 2 shows, San Diego County had the highest juvenile and second highest adult arrest rates, following only San Bernardino. From 2012 to 2013, the other four large California counties all had decreases in their adult arrest rates (ranging from -11% to -19%), while San Diego had a slight increase (1%). For juveniles, all five counties, including San Diego, had one-year decreases in arrest rates, but San Diego had the smallest decrease (-17%), compared to between -31 percent to -41 percent for the other four (Table 5).

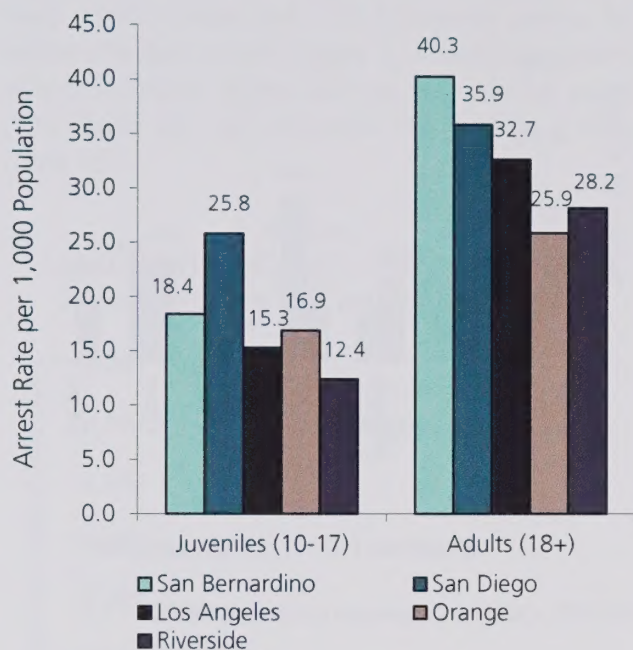

What were Adults in San Diego County Most Frequently Arrested For in 2013?

- Misdemeanor Driving Under the Influence (33/day)
- Misdemeanor Drinking Law Violations (25/day)
- Felony Aggravated Assault (18/day)
- Misdemeanor Other Drug (17/day)
- Misdemeanor Assault and Battery (16/day)

¹ In prior years, arrestee age has also been reported. However, 2013 data were not provided by the State with this categorization, therefore, analyses could not be prepared for this bulletin.

Figure 2

SAN DIEGO COUNTY HAD HIGHEST JUVENILE AND SECOND HIGHEST ADULT ARREST RATE COMPARED TO OTHER LARGE CALIFORNIA COUNTIES

SOURCES: California Department of Justice; SANDAG

NUMBER OF ADULT AND JUVENILE ARRESTS

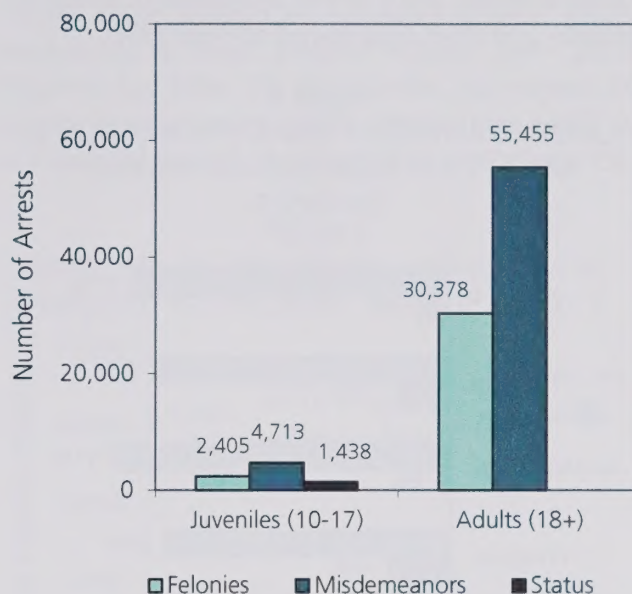

Even though juveniles have historically had a higher arrest rate per 1,000 population compared to adults, it is important to note that many more adults are actually arrested. In 2013, there were 85,833 adult arrests (30,378 at the felony level and 55,455 at the misdemeanor level) and 8,556 juvenile arrests (2,405 felonies, 4,713 misdemeanors, and 1,438 status offenses) (Figure 3 and Tables 13-15, and 26-28). On average, there were around 235 adult and 23 juvenile arrests every day in 2013 in the San Diego region by local law enforcement agencies (not shown).

What Were Juveniles in San Diego County Most Frequently Arrested For in 2013?

- Other Misdemeanors (3/day)
- Misdemeanor Petty Theft/Burglary (3/day)
- Curfew Violations (3/day)
- Misdemeanor Assault and Battery (2/day)
- Felony Burglary (2/day)

Figure 3

IN 2013, THERE WERE ABOUT 2 ADULT MISDEMEANOR ARRESTS FOR EVERY 1 FELONY ARREST

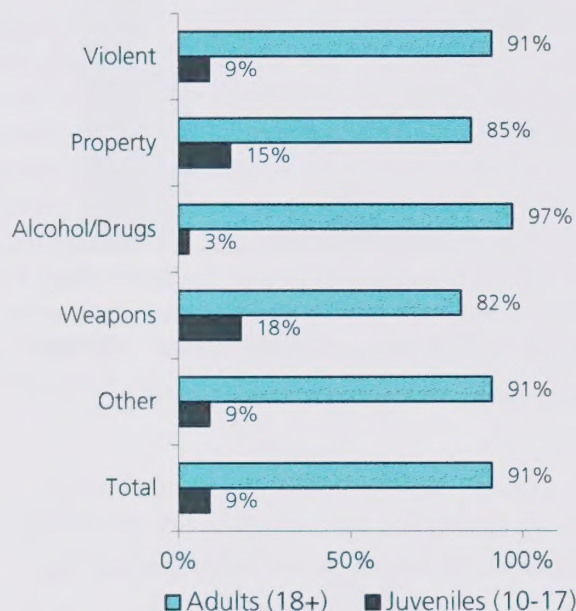

SOURCES: California Department of Justice; SANDAG

How Many Arrests Were Made Per Day, on Average, in 2013

	Of Juveniles...	Of Adults...
For Which Crime?		
Violent	4	38
Property	5	28
Alcohol/Drug	4	104
Weapons	1	4
Other	6	61
Status	4	N/A

As Figure 4 shows, while 9 percent of all individuals arrested in 2013 were juveniles, there was variation by crime type, with juveniles representing a greater proportion of arrests for weapons (18%) and property (15%) offenses, and a smaller proportion of arrests for alcohol- and other drug-related offenses (3%).

Figure 4
JUVENILES REPRESENT HIGHER PROPORTION OF ARRESTS FOR WEAPONS AND PROPERTY OFFENSES

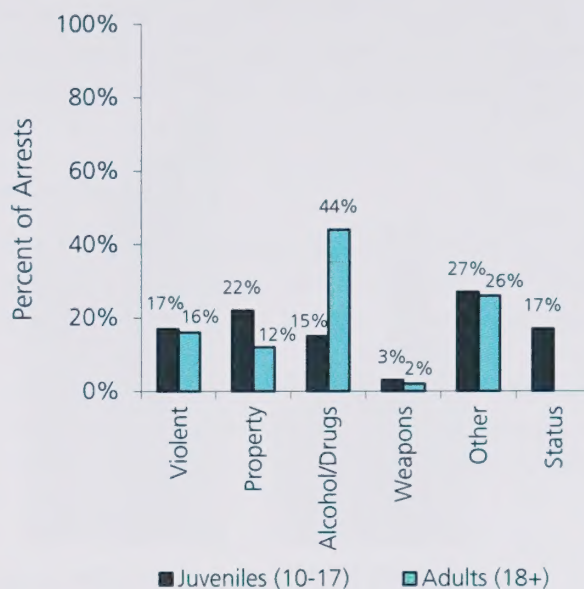

SOURCES: California Department of Justice; SANDAG.

ARRESTS BY OFFENSE TYPE

What types of crimes are adults and juveniles arrested for? As Figure 5 shows, more than two in five (44%) adult arrests were for an alcohol/drug offense and one in four (26%) for some other type of crime. In comparison, the distribution across crime type varied more for juveniles, with the most common being other (27%) and property (22%) offenses.

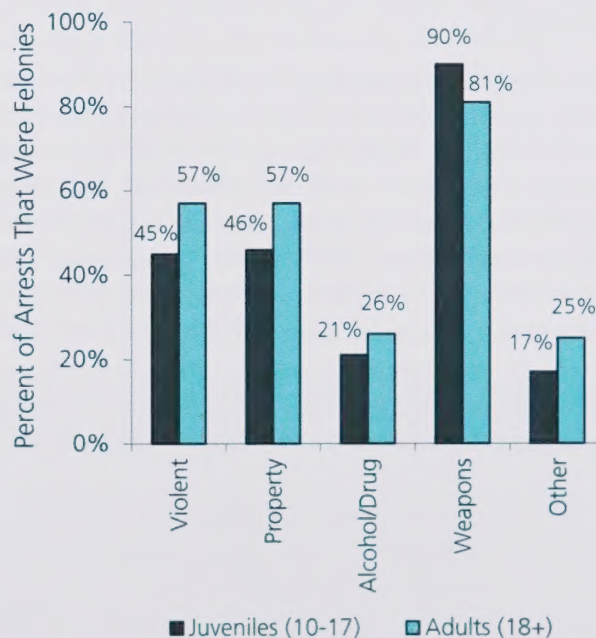

There was also variation across the arrest categories in terms of what percent represented offenses at the felony versus misdemeanor level. As Figure 6 shows, while four-fifths or more of juvenile and adult arrests for weapons offenses were at the felony level (90% and 81%, respectively), a much smaller percent were felonies in the alcohol/drug (21% and 26%) and "other" (17% and 25%) offense categories.

Figure 5
COMPARED TO JUVENILES, ADULTS MORE LIKELY TO BE ARRESTED FOR ALCOHOL/DRUG OFFENSES

SOURCES: California Department of Justice; SANDAG.

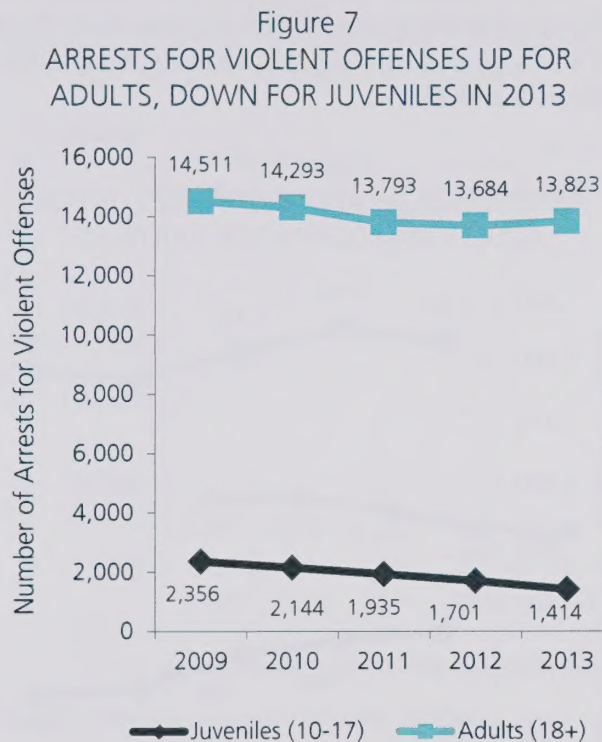

Figure 6
PERCENT OF ARRESTS AT THE FELONY LEVEL VARIES BY OFFENSE TYPE

SOURCES: California Department of Justice; SANDAG.

Violent Offenses

The violent offense arrest category includes four felony-level offenses (homicide, rape, robbery, and aggravated assault) and two misdemeanor-level offenses (manslaughter and assault/battery). There were 13,823 adult and 1,414 juvenile arrests for violent offenses in 2013 (Figure 7). Arrests for a violent offense increased slightly over the past year for adults (1%) (Table 20), but decreased for juveniles (-17%) (Table 33).

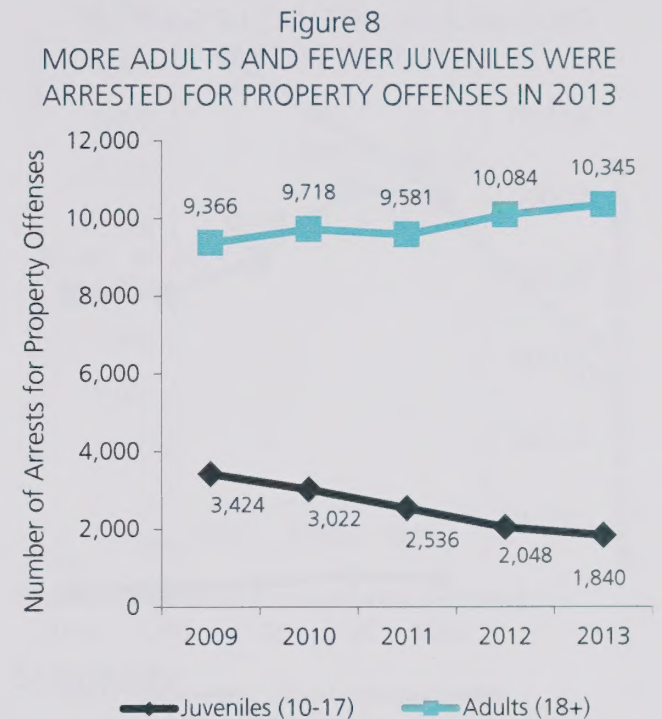

SOURCES: California Department of Justice; SANDAG.

For adults, there were one-year decreases in the number of arrests for three of the four felony-level violent offenses (-29% for homicide, -3% for rape, and less than -1% for aggravated assault), but an increase in the number of arrests for robbery (2%). Misdemeanor arrests for manslaughter/assault and battery were also up three percent (Table 21). For juveniles, there were one-year decreases in the number of arrests for robbery and aggravated assault at the felony-level (-24% and -17%, respectively), as well as misdemeanor manslaughter/assault and battery (-15%). Numbers were too small to compare for homicide and rape (Table 34).

Property Offenses

Property offenses include felony-level burglary, larceny, and motor vehicle theft, and misdemeanor-level petty theft and burglary. In 2013, there were 10,345 adults arrested for a property offense, which represented a three percent increase from 2012 (Figure 8 and Table 20). For juveniles, the number of arrests for a property crime dropped to 1,840, a one-year decrease of 10 percent from 2012 (Table 33).

SOURCES: California Department of Justice; SANDAG.

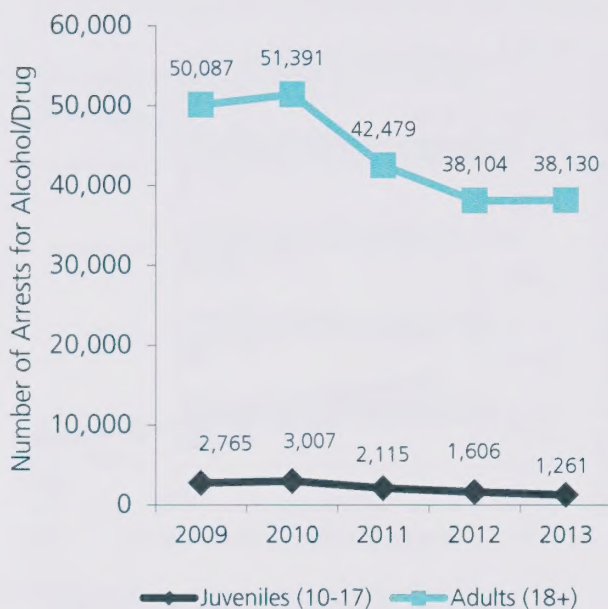

Across the felony property categories, there were fewer adult arrests for motor vehicle theft (-7%), but more for burglary (5%) and larceny theft (7%), as well as misdemeanor-level petty theft/burglary (1%) (Table 22). For juveniles, there were one-year decreases in felony-level burglary (-8%) and larceny (-3%), as well as misdemeanor petty theft/burglary (-13%), but a one percent increase in the number of motor vehicle thefts (Table 35).

Alcohol- and Other Drug-Related Offenses

In 2013, there were 38,130 adult and 1,261 juvenile arrests for alcohol- and other drug-related offenses (Figure 9). For adults, this represented a slight increase (<1%) from 2012, but for juveniles, it was a decline of 21 percent (Tables 20 and 33).

Figure 9

ADULT ARRESTS FOR ALCOHOL- AND OTHER
DRUG-RELATED OFFENSES UP SLIGHTLY,
JUVENILES DOWN

SOURCES: California Department of Justice; SANDAG.

Within the alcohol- and drug-related offense category are five felony and five misdemeanor categories. For adults, there were increases in five of the ten: four at the felony-level and one at the misdemeanor level, ranging from 7 percent for felony narcotics (which includes offenses related to heroin, methamphetamine, and cocaine/crack) and misdemeanor other drug offenses (which includes offenses related to fraudulent prescription drugs) to 37 percent for felony other drug offenses (which includes illegal possession of drug paraphernalia and prescription drugs) (Table 23). Decreases ranged from less than -1 percent for felony-level driving under the influence to -38 percent for misdemeanor liquor laws. The number of misdemeanor driving under the influence arrests was also down in 2013. Law enforcement officials attribute this decrease to

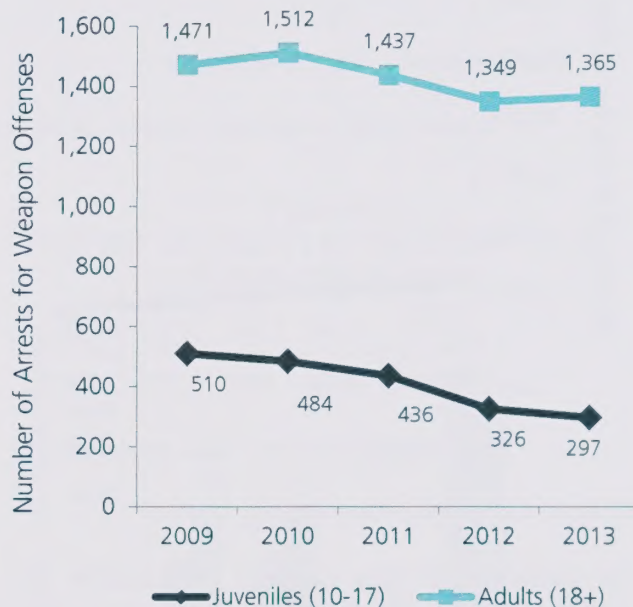

consistent education and availability of alternate modes of transportation for those unable to drive safely. For juveniles, there were decreases in six of the eight alcohol- and drug-related charges (with enough numbers for comparison), with increases for felony-level marijuana offenses (55%) and dangerous drugs (2%) (Table 36).

Weapons Offenses

There were 1,365 adult arrests and 297 juvenile arrests for weapons violations in 2013 (Figure 10). 2013 represented a one percent increase from 2012 for adults, and a nine percent decrease for juveniles (Tables 20 and 33).

Figure 10

ARRESTS FOR WEAPONS OFFENSES UP FOR
ADULTS AND DOWN FOR JUVENILES

SOURCES: California Department of Justice; SANDAG.

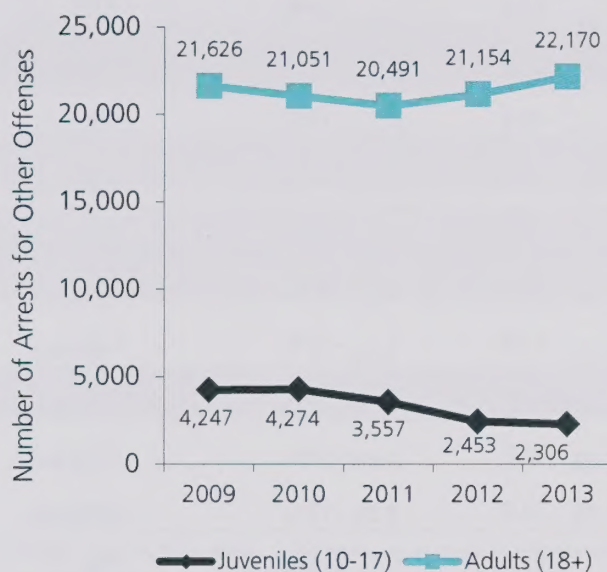

For adults, arrests for felony-level offenses were up three percent, but misdemeanors were down seven percent (Table 24). For juveniles, there were decreases for both felonies (-9%) and misdemeanors (-12%) (Table 37).

Other Offenses

There were 22,170 adult arrests and 2,306 juvenile arrests for "other" offenses in 2013 (Figure 11). At the felony level, "other" charges include sex-related offenses, forgery, and arson, as well as other felonies

(such as kidnapping). At the misdemeanor level, offense types include other theft-related charges, sex-related and prostitution, disturbing the peace, vandalism/graffiti, hit-and-run, selected traffic offenses, violations of city/county ordinances, failure to appear in court offenses, and other charges such as contributing to the delinquency of a minor. Over the past year, there was a five percent increase in other offense arrests for adults, but a six percent decrease for juveniles (Tables 20 and 33).

Figure 11
NUMBER OF ARRESTS FOR OTHER OFFENSES UP FOR ADULTS, DOWN FOR JUVENILES

SOURCES: California Department of Justice; SANDAG.

For adults, there were one-year decreases in 8 of the 14 felony and misdemeanor "other" crime categories, ranging from -2 percent (disturbing the peace and other misdemeanors) to -30 percent (other theft/checks/access cards). The increases ranged from 3 percent (felony-level forgery/checks/access cards) to 24 percent (other felonies) (Table 25). For juveniles, there were decreases in six of the nine categories with enough numbers for comparisons, but increases for the other three which included felony-level arson, and misdemeanor-level sex-related crimes and other offenses (Table 38).

Status Offenses

As Figure 12 shows, there were 1,438 status offense arrests in 2013, which represented a 32 percent decrease from 2012. This overall decline was driven by

fewer arrests for truancy (-76%) and curfew violations (-30%). In addition, there were no arrests for running away² in 2013, compared to 107 in 2012. There was, however, a 34 percent increase in "other" status offenses which includes incorrigible behavior and failure to obey orders of the court (Table 39).

Figure 12
NUMBER OF STATUS OFFENSE ARRESTS DECREASED AGAIN IN 2013

SOURCES: California Department of Justice; SANDAG.

SUMMARY

The current CJ Bulletin describes what types of arrests were made in the San Diego region in 2013 by local law enforcement agencies of both adults and juveniles. While the juvenile arrest rate and adult misdemeanor arrest rate continued to decline in 2013, the adult felony arrest rate was up. As a result, for the second year, adult arrest rates were higher than juveniles, something which has not historically been the case. Juveniles continue to be arrested for a greater variety of crimes, but the most notable change was the continued drop in status offense arrests.

² In 2013, the state reported no runaway arrests for any agency in San Diego County, but further investigation revealed that this is not consistent with follow-up data inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2013 may be somewhat higher than what is reported here and in other arrest statistics from the State.

Total	333	308	412	24%	34%
Total Status					
Boys	2,691	1,437	937	-65%	-35%
Girls	1,416	679	501	-65%	-26%
TOTAL	4,107	2,116	1,438	-65%	-32%

NOTES: Variations in emphasis or focus on individual status offenses by law enforcement and prosecution agencies impact the number of arrests/juvenile contacts. "Other" status offenses include incorrigible behavior (such as failure to comply with parental authority), failure to obey orders of the Juvenile Court (such as community service and fines), and running away from court-ordered placement. In 2013, the state reported no runaway arrests for any agency in San Diego County, but further investigation revealed that this is not consistent with follow-up data inquiries to individual agencies. As such, it is important to note that the number of status offense arrests in 2013 may be somewhat higher than what is reported here and in other arrest statistics from the State.
